CAPITAL AREA CORPORATE RECYCLING COUNCIL WARRANTY CONDITIONS

Computer systems and other materials sold by the Capital Area Corporate Recycling Council (CACRC) are refurbished, tested and in good-working condition, as required by the Responsible Recycling Program (R2).

Conditions of the one year warranty offered are as follows:

- Computers that experience hardware failure will be able to be refunded or replaced at no cost within a year.
- All customers must provide a copy of their original receipt to receive a refund or replacement.
- Tech fees may apply.
- Virus and software issues are not covered by the year warranty.
- The CACRC cannot ensure matching replacement sets (i.e., brand, colors)
- An installation of any other operating system will automatically void the warranty; tech services will not be offered on the item.

External Items:

External items such as adapters and batteries are not covered under the one year warranty.

Viruses:

Charges will be applied to all virus removals. An antivirus program is installed on every computer sold by the CACRC. Our nonprofit encourages customer refrain from visiting dangerous sites, open unknown attachments, or download free games, movies, or music or file sharing to avoid viruses.

Many websites carry loaded malicious software (malware, spyware, etc.) that can infect hard drives and either slow or harm the computer. Viruses are not covered by the warranty.

CACRC technicians can only provide tech services for computers purchased directly from the CACRC.

I UNDERSTAND AND AGREE TO THE TERMS LISTED ABOVE:
